

### Rural Travel Hubs – Swavesey Questionnaire

The Greater Cambridge Partnership is investigating the feasibility of providing travel hubs, enabling residents in South Cambridgeshire to more easily connect to public transport, cycling and walking facilities. The current transport facilities provided at Swavesey could represent what travel hubs will be like throughout South Cambridgeshire. The aim of the Rural Travel Hubs project is to make journeys via sustainable transport into the city easier and more attractive in order to reduce the number of car journeys being made.

Obtaining feedback from the users of the Swavesey Busway stop is an important part of the feasibility study. We would appreciate you taking the time to complete the following survey. It should take approximately three minutes to complete.

Your responses will be treated as confidential. All responses will be compiled together and analysed as a group. Individual responses will not be passed to third party organisations, will be used solely for the purposes of the feasibility study and will be destroyed following collation of the group data. All responses are voluntary. If there are any questions you do not wish to answer, simply move on to the next question.

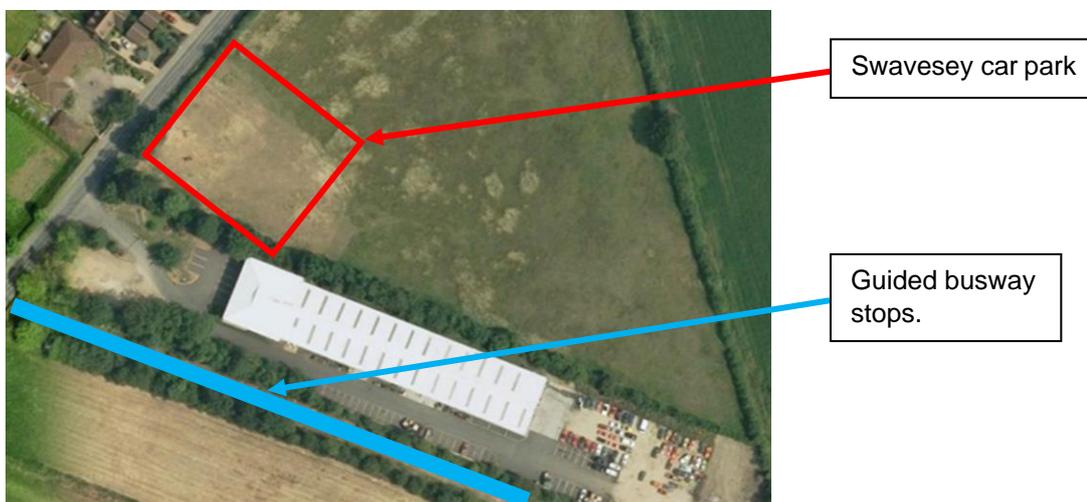

Image 1: Swavesey transport facilities location plan.

Image 2: Google Streetview of the entrance to the Swavesey car park and pick up/drop off facilities.

Images 1 & 2 above show the location of the car park and pick-up/drop-off point. The guided busway stops, together with the car park and associated cycle parking form the transport facilities at Swavesey that are the subject of this survey.
