

Ref: Chisholm Trail/Abbey-Chesterton Bridge

Tarmac Infrastructure
Ditton Walk Site Compound
Cambridge
CB5 8PX

22 July 2019

Dear Sir/Madam,

Tarmac Infrastructure has been contracted by the Greater Cambridge Partnership and Cambridgeshire County Council to construct the **Chisholm Trail and Abbey-Chesterton bridge**, part of a new north-south foot and cycle route through Cambridge.

As part of these works we will be **working on the River Cam to create the structure to support the new Abbey-Chesterton foot and cycle bridge and replacing the jetty**.

We aim to keep the jetty open for as long as possible whilst preparatory works take place. However, in order to provide a safe working area, **the jetty will need to be closed from August 2019 until Summer 2020**. The date and time of the closure will be confirmed and publicised on signs by the jetty, on Ditton Meadows and nearby walking and cycling routes as well as online at www.greatercambridge.org.uk/chisholm.

A diversion route will be in place throughout the works. Please see the map overleaf.

River restrictions will also be in place for water craft throughout the works. As much width of the river will be kept open for access and rowing as possible, however the river may need to be closed from time to time for short durations. Restrictions will be removed if they impact planned events.

There will be Tarmac supervisory staff on site throughout the works. **If you wish to discuss this work and how it affects you, please contact the Project Manager Alex Bedford on alex.bedford@tarmac.com or via our out of hours number: 0800 876 6087.**

Updates on the Chisholm Trail and other Greater Cambridge Partnership projects are also available via email, to subscribe please visit: www.greatercambridge.org.uk/contact-us.

We apologise for the inconvenience and disruption to pedestrians, cyclists and local residents due to the necessity of closing this foot and cycle path.

Thank you in advance for your co-operation.

Yours faithfully,

Alex Bedford
Project Manager
